KUNAL MARCHANDE

intern

PROFILE

A passionate second-year Computer Science student with a willingness to learn new technologies and push my creative boundaries. Not being at the top of my class does not deter me; my appetite to learn and solve keeps me working to do more.

I crave challenges and do not release until I have a solution in place. I look forward to learning software development, web technologies, and creative problem-solving to make my mark in the world.

EDUCATION

KVS Colaba Mumbai-05
[2010 – 2022]
[Supportive and always ready to help, I bring energy, enthusiasm, and a team spirit. While I stick with friends, I stay dedicated and never give up on challenges, always eager to learn and grow.]

K.c. College B.Sc.CS
[From 2024]
[As I got the late admission in the college I'm was lacking behind some part and took time to catch up, though as I caught up I meet some good people on the way learning and growing up with them]
